	Paul,
	Here is a revised draft of the Nam Dinh
	Section. We have cut the part on developing an
	alternative methodology of estimating civilian consulting
	or a result of arbon area raids because it is
	not of general enough interest. The "Findings"
	section discussion of the casualty rate has been
	somewhat of panded.
	We have gone through all sorts of
	confortions to come up with additional US
•	Strike, mission, ordnevel, and sortie data on
•	Nom Dinh; we checked DA, OPTAN, NMCC
	among others, without success. The only way of
